EXAMINER'S COMMENT

Drawings

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the figures 3A-3C were not included with the response filed 8 January 2007. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance.

The examiner has reviewed applicant's arguments concerning combining the Utz et al., Sumitomo Bakelite and Takahisa et al. references under 35 USC 103. After a further review of the claims and a review of the translations of both the Sumitomo Bakelite and Takahisa et al. references (both attached to this Office action) it is the opinion of the examiner that a person having ordinary skill in the art would have found no motivation to combine the teachings and suggestions of the Utz et al., Sumitomo Bakelite and Takahisa et al. references in order to arrive at the claimed subject matter of claims 1-11. In particular, a review of the translations of the Japanese documents reveals that they are silent as to the possible use of the films disclosed therein in any sort of deep drawing packaging method where the film would need to be molded. The films of the two Japanese documents are primarily directed towards the use of the films

to form bags which may be shrunk by heat. The two Japanese documents, on further review, disclose subject matter which is deemed to be non-analogous to the disclosure of the Utz et al. document.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

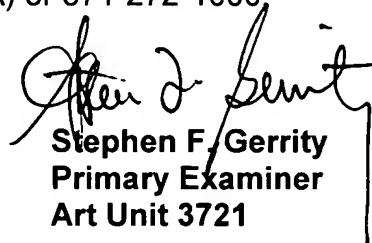

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen F. Gerrity whose telephone number is 571-272-4460. The examiner can normally be reached on Monday - Friday from 6:30 - 3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rinaldi Rada can be reached on 571-272-4467. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
